

Dataset Documentation: India's Agricultural Crop Production Analysis

Date: 1 July 2026

Prepared by: Gajjala Pavana Deepika

1. Dataset Overview

This dataset contains historical information regarding agricultural crop production across various Indian states. It is structured to facilitate trend analysis over multiple fiscal years.

2. Data Dictionary

Column Name	Data Type	Description
Year	String/ Date	Fiscal year of the recorded production (e.g., 1998-99 to 2018-19).
State	String	Name of the Indian state.
Sum of Production	Numerical	Total quantity or value of crop production.
Production Status	String	Categorical status indicator (e.g., Low, Medium, High).

3. Sample Records

Year	State	Sum of Production	Production Status
------	-------	-------------------	-------------------

2018-19	Karnataka	63,481,574,884	Low
2018-19	Maharashtra	[Data Available]	Low
2018-19	Uttar Pradesh	[Data Available]	Low

4. Data Preprocessing Notes

The dataset has been cleaned to ensure consistency in fiscal year formatting and state nomenclature. Missing values were handled to maintain the integrity of time-series visualizations.
